

PRESS RELEASE

CRYPTO FINANCE LAUNCHES INNOVATIVE THEMATIC CRYPTO ETPS

Zurich, Switzerland, May 15, 2023 - Crypto Finance AG, a part of Deutsche Börse Group, and a leading provider of institutional-grade investment solutions, custody, and brokerage for digital assets, announces the launch of two novel crypto Exchange Traded Products (ETPs). The two ETPs, CF Crypto Momentum ETP and CF Crypto Web 3.0 ETP, will complement Crypto Finance's range of regulated crypto investment funds.

By expanding its offering to include crypto ETPs, Crypto Finance (Asset Management) AG is leveraging its credibility to bring more trust, legitimacy, and professionalism to the crypto product landscape.

The **Crypto Momentum ETP** (ISIN: CH1263519394), a multi-coin index ETP, is designed to provide investors with diversified and differentiated exposure to leading crypto projects. Its strategy combines price and on-chain momentum, making it a pioneering product in the field. Stefan Schwitter, Head of Asset Management at Crypto Finance AG explains, "We integrate price momentum indicators with on-chain activity metrics, which allows us to select crypto protocols that are actively used and have the greatest adoption."

The **Crypto Web 3.0 ETP** (ISIN: CH1263519386) is designed for investors seeking exposure to the next generation of the internet: the secular investment theme known as Web 3.0. The ETP invests in a variety of verticals, including smart contract platforms, scaling solutions, data management, and others. Schwitter adds, "What makes the ETP unique is that it consists of more than 10 protocols that make up the next iteration of the internet and is overseen and managed by our investment committee."

Both ETPs have been listed in Switzerland on BX Swiss on May 12, 2023 and will be listed subsequently on Xetra, which is part of Deutsche Börse Group. The ETPs will be available for trading through banks and trading platforms.
